Consent items

If the applicant is purchasing a mobile phone or other device on consumer credit or individual item installment sales, I consent to the applicant signing a contract with the company in accordance with the terms and conditions set out in the relevant Consumer Credit Agreement or Individual Item Installment Sales Agreement and applying to pay off the balance of installments before the end of the installment payment period. I accept that, if the contract holder designates a credit card or a bank account in my name (※in the name of the parent specified in this Parental Consent Form only) as their method of payment for Sakura Mobile telecommunication service charges※4, payment for Sakura Mobile telecommunication service charges used by the contract holder will be made using the designated credit card or bank account. In the event of any delay in making payments, I will make every effort to resolve the matter.

1. Disclaimers Concerning Applications for Consumer Credit Agreements or Individual Item Installment Sales Agreements

• According to the provisions in the Installment Sales Act (excluding individual item installment sales agreements), personal credit information, including the contract holder's payment status, is queried and registered at a credit information agency designated by the Ministry of Economy, Trade and Industry at the time of applying for a consumer credit agreement or individual item installment sales agreement, and after entering the agreement. Other members of the designated credit information agency may also use the information about the registered contract holder.

continued on right side

- Even if the contract holder is a minor and the parent or guardian falls into arrears with respect to payments, the payment arrears will be treated as information about the under-age contract holder. Please note that applications for other credit lines or loans may be denied since a record of any payment arrears is held at the designated consumer credit agency for a period of 5 years after full payment.
- If signing a Consumer Credit Agreement or an Individual Item Installment Sales Agreement when applying to purchase a mobile phone or other device, the parent will be required to come into the store on each occasion (for the purpose of parental consent).

2. Other precautions

- If any of the information entered on this form (name, address, contact details, etc.) is found to be inaccurate, the contract may be terminated. With regard to the use of mobile phones by children, please discuss the purpose, method, time, charges, etc. extensively with the children and establish rules. Please also ensure that you review the rules regularly.

<Confirmation items on filtering services>

If a minor will be using services connected to the Internet, we would recommend signing up to a filtering service.

- When using the Internet, adolescents may come into contact with illegal or harmful materials that could be detrimental to their personal development. The Internet also exposes users to criminal activity and other risks including the following. We therefore recommend signing up for a filtering service.
 - You can still sign up even if the contract holder is an adult, providing that the user is a minor
- (1) Increasing numbers of young people have gotten in trouble through communication with strangers via social media sites, etc.
 - ※More than 90% of minors who became involved in criminal activity through community sites were not using any filtering services. (Based on the National Police Agency's announcement in October 2018.)
- (2) They are at risk not only of falling victim but also of committing a crime themselves before they know it. (Theft of personal information through communication with strangers, inappropriate posts leading to criminal activity, peer trouble caused through posting of videos or images, and so on)
 - If the contract holder is different from the user of the Sakura Mobile mobile phone, the contract holder can register using their own details.
- If the contract holder or the user is a minor, a Filtering Service Application※5 must be submitted.
- Even if the applicant wishes to decline filtering services, a Filtering Service Application (on the right-hand side of this document) must be submitted.
- ※ Please be advised that if the content of this application is found to be untrue and inaccurate, the company may consider this application for non-use of the filtering service to be null and void, and may provide the filtering service.

[Confirmation for use by your child]

- I understood that using the Internet without any filtering service may cause my child to come into contact with illegal or harmful materials that could be detrimental to his/her personal development.
- I understood that increasing numbers of young people have gotten in trouble through communication with strangers via social media sites, etc. and they are at risk not only of falling victim but also of committing a crime themselves before they know it.
- I am certain I have made the right choice for my child based on a good understanding of the above points.

- (※1) This Parental Consent Form is required for each request for a phone number change.
- (※2) Children in elementary school may not apply to suspend, cancel or transfer a contract in their name on their own(until they enter middle school (7th grade)). Applications should be made in the name of the parent/guardian or legal representative instead.
- (※3) The company offers a range of services that users can apply for directly from their mobile phone or other device.
- (※4) It includes charges for the services and items purchased at various websites, if any.
- (※5) In the event you request to decline filtering services, you are required to do so in accordance to the proviso of Article 15 of the Act on Establishment of Enhanced Environment for Youth's Safe and Secure Internet Use. The submission of this form is required for contracts with subscribers under the age of 20, or when the user is under the the age of 20.

◆ This document is valid only if it is accepted within one month from the date of creation.
